OUR LAW FIRM

Based in our experience working in traditional Law Firms, we have conceived a different professional orientation to our Law Firm, organizing ourselves as a Legal Service Agent (LSA).

We difference ourselves from a traditional Law Firm that involves a significant volume of lawyers, as we recognize the weaknesses of these organizations, such as having to deal with a high rotation of junior lawyers, who are not often prepared to deal with many matters; and the lack of coordination between young professionals and partners, who usually are not fully aware of every detail involved in the daily handling of businesses.

Our operation scheme, as well as our excellent business relationships with the best lawyers in Colombia, place us in a professional and logistic capacity to receive and handle all kinds of legal matters, in every legal area, adjusting to the needs of our clients, that generally require more than one expert Law Firm, or dealing with all kinds of lawyers, as well as assuming different legal, economic and invoicing schemes.

Accordingly, we offer new options to our clients, by coordinating the strategy and detailed handling of all their legal matters, either with our own capacity, or by using our alliances with expert lawyers, which allows us to make professional to professional consultations at a much lower cost for our clients, compared to the costs that a client would incur for directly hiring these experts. In addition, our scheme provides greater comfort to our clients by dealing with one single invoice system instead of having to deal with many Firms at a time.

EXPERIENCE & AREAS OF PRACTICE

Our experience is reflected in the direction of the most complex litigations in our Country, including the direction and coordination of the most prestigious lawyers and professionals in many areas.

Our Firm Director, Mr. Alexandre Vernot, is one of the most recognized lawyers in the Country, with vast academic and professional experience in Civil and Commercial Law, Corporate, Banking and Financial Law, Intellectual Property Law, Criminal Law, Litigation, and External Indebtedness.

Furthermore, our in-house professionals are specialized in Securities Law, Foreign Investments, Business Law, Financial Planning of Projects, Entertainment Law and Court Litigation.

As a Legal Service Agent our experience has grown in different spectrums such as Mining Law, Tax Law, Administrative Law, Urbanity Law, and Project Development with Governors and Territorial Entities, among others.

STRATEGY

Beyond the conventional legal services, our main ability and concern is the planning and execution of legal strategies pursuing the successful accomplishment of all kinds of business and cases, not only in the legal aspects, but also connecting the key elements and people to make any private or public project viable.
